ISRO AT SAT EXPO EUROPE 2010

SAT Expo Europe 2010 will be held in Rome, from 4 to 6 February 2010. It is the only event in the Mediterranean Basin dedicated to space services and applications and integrated TLC.

This year, India is a "Partner Country." A delegation of representatives of the ISRO, will participate in the various conferences and workshops to better inform European participants, of ISRO's activities & solutions for the aerospace sector.

The Mediterranean Space Conference will focus on themes related to aerospace cooperation within the Mediterranean, Earth observation, unmanned flights, integrated communications, and financing opportunities.

Conference sessions will cover topics such as 3D TV production & content and satellite distribution of HD and digital cinema content.

SAT Expo Europe is supported by the European Commission. It is the official event of the Italian aerospace associations (ASAS, AIPAS, AIAD); its scientific partners are: ASI, ESA, AIDAA and IEEE. SAT Expo Europe is also sponsored by Finmeccanica group, Sviluppo Lazio, Euteslat, Skylogic and Open-Sky.

Satellite & Cable TV magazine is a supporting publication, for the event.
